OBJECTIVE

Mobile Developer skilled in Kotlin, Flutter, Swift, REST APIs, and full-stack development, seeking a full-time role to design and build scalable, high-performance applications.

SKILLS

Technical Skills: Kotlin, Flutter, Dart, Django, Python, C/C++, Riverpod, Provider, REST APIs, Firebase, GitHub
Soft Skills: Problem-Solving, Communication, Team Collaboration, Time Management, Adaptability
Tools & Platforms: VS Code, Android Studio, Visual Studio, Netlify, Linux (Debian/Arch), macOS, Windows

EXPERIENCE

Mobile App Developer Intern July 2025 – Oct 2025
Paramount Infosystem Pvt ltd *New Delhi, IN*

- Built 2 mobile apps using **Kotlin multiplatform and compose multiplatform** with **ASP.NET backend**.
- **Integrated 10+ REST APIs** to connect frontend components with core backend services.
- Managed **application state** and built accessible, **responsive UIs** across mobile platforms.

Software Developer Intern Mar 2025 - Apr 2025
Utopian Gateway *Remote*

- Developed mobile apps using **Flutter** and **Django** (backend).
- Managed the end-to-end integration of **RESTful APIs** to connect frontend and backend services, improving data flow.
- Built responsive UI and backend services with Flutter.

PROJECTS

Oragtre. Enterprise stock management solution built with Flutter and ASP.NET, successfully managing thousands of stocks across multiple Retailers, Distributors.

BGIR. Built a tool to manage the task of the Employees by using Kotlin, Swift, Firebase and ASP.NET as Backend. Over many employees have used it so far, with 500+ Task being Created and Done

Soil Health App. A Flutter Mobile Application that monitors soil health parameter like Temperature and moisture using Bluetooth Device (BLE), The data should Store in Firebase Firestore and cached locally in shared preference and visualized with **charts** to observe trends. (Link)

News App. Created a mobile news app using Flutter and Dart with REST API integration, category filters, bookmarking, and offline reading. (Link)

EXTRA-CURRICULAR ACTIVITIES

- Participated in **Soroban Build-A-Thon Hackathon**, demonstrating teamwork and rapid prototyping under deadlines
- Attended **Generative AI Workshop by GUVI-HCL & Intel at IIT Delhi**, gaining exposure to cutting-edge AI tools
- Secretary of **college Tech club**, actively contributed to coding challenges and peer mentoring

EDUCATION

Masters of Computer Applications, GGSIP University Expected 2027
Relevant Coursework: Data Structures, DBMS, Operating Systems, App/Web Development

Bachelor of Computer Applications, GGSIP University 2022 - 2025
CGPA – 8.02
